Follow the clues below to uncover some of our favorite hidden gems around River Mountain. Each clue leads you to a stake in the ground, weatherproof box, bag, or treasure!

Oh, and hey...we didn't get too crazy with this. All spots are near pathways. No need to climb Warrior Ridge like a billy goat looking...let's go!

Start At The Hiking Loop Trailhead, Near The Main Lodge...

SPOT 1

Once the tallest tree around,
the wind took it out and it fell down.
Now the trunk rests as a gateway to the trail,
waiting for someone to look on top and find the tale!

SPOT 2

There's a quiet corner where the creek and
the mountain meet -
that's where you'll find your treat!

SPOT 3

Keep going and lookout,
for a trail going left, back into the trees -
there you'll find a spot to hang
and sway in the breeze.

SPOT 4

Hey, since you're moving about,
take a minute and go stretch it out.

SPOT 5

Stay on the woods trail as it turns right and
heads up to the west,
you'll find a super cool foot bridge,
it's the absolute best!

SPOT 6

On your way back and near to the start -
take a moment to reflect after your wander,
stare into the glass and PONDER.
